English Proficient ●●●●●

SKILLS

Python · EDA · Excel · Tableau

Power BI · Data cleaning

Statistical analysis

INTERESTS

Data Innovation

Creating impactful insights through data visualization and statistical analysis to transform raw data into solutions.

PROJECTS

Customer Retention & Churn Analysis

03/2026 Github, Remote
Customer Churn & Retention increased by 26.5%
https://github.com/stanley-metone/FUTURE_DS_02.git

Automated Efficiency & Performance Tracking

06/2026 - Present Remote
Operations Analyzer using Python for automated efficiency tracking and performance reporting.

SUMMARY

Junior Data Analyst professional with experience in data analysis and visualization, expert in Power BI and Python. Key achievements include a 26.5% increase in Customer Churn & Retention, the development of an Operations Analyzer for automated efficiency tracking, and a research certification from Indaba X Kenya on AI in Health. Seeking a Data Analyst Intern position at Save the Children, where data analysis and visualization skills will be brought to support your mission of building a career in data analytics while contributing to a global humanitarian mission.

EXPERIENCE

Data Science & Analytics Intern Future Interns

03/2026 - 04/2026
Remote

- Collected, cleaned, and processed complex datasets from various sources, ensuring 100% data accuracy for analysis.
- Worked on the following Projects to generate actionable insights: Sales Performance Analysis, Customer Retention & Churn Analysis, and Market Funnel & Conversion Analysis.
- Collaborated with project stakeholders to identify key performance indicators, improving decision-making processes.

Data Analytics Intern AnalystLab africa

06/2026
Lekki, Lagos Nigeria

- Analyze and clean datasets using Python, SQL, Excel, and Power BI to support data-driven decision-making.
- Perform exploratory data analysis (EDA) to identify trends, patterns, and business insights.
- Develop interactive dashboards and visualizations to communicate key performance metrics.
- Collaborate with cross-functional teams to deliver actionable insights and improve data quality.

Machine learning & AI Intern FlyRank AI

06/2026
Remote

- Build and evaluate machine learning models using Python and industry-standard AI libraries.
- Preprocess, clean, and transform structured datasets to improve model performance.
- Apply data analysis and feature engineering techniques to support AI-driven solutions.
- Collaborate with mentors and team members on end-to-end machine learning projects, from data preparation to model evaluation.

CERTIFICATIONS

Research on AI in Health

Issued by Indaba X Kenya, 2026

TRAINING / COURSES

Data Entry & Analysis using Excel

Issued by Ajira Digital Program, 2026

Data Analytics Course

In progress, IBM SkillsBuild, 2026

Professional Foundations

Issued by ALX Ventures, 2026

Leadership Course

In progress, Aspire Institute, 2026

STRENGTHS

 **Analytical Thinking**
Developed comprehensive data analysis projects, helping to identify trends and drive strategic decisions within academic settings.

 **Data Visualization**
Successfully built interactive dashboards from various datasets, enriching stakeholder understanding through effective visual communication.
